DELTA2 GREY WOLF

DESCRIPTION

Based on our successful striker-fired polymer government pistol series "DELTA2", the new DELTA2 - GREY WOLF has been extensively optimized for the LIGHT DIVISION sports market. Tuning right out of the box! With fully adjustable sport sights and optimized front sight for better target acquisition. Of course, Red-Dot-Optics can still be mounted at any time due to the multi-modular OR plates. The extended cold hammered threaded barrel, stands for high precision and comes standard with a new recoil reducing mini compensator. The extended magazine button and the adaptive sport jet funnel improve the required performance in competition. High-Cap-Mags contain all what you need - Rounds to success! A new surface treading process enables a convincing reduction of the trigger weight - right out of the manufacturing! Performance and Precision - all you need: DELTA2 GREY WOLF
